

**The Royal Institution of Chartered Surveyors
Proceedings of the COBRA 2007 Conference
6-7 September 2007
Georgia Institute of Technology, Atlanta, Georgia USA**

1. An Assessment of Quality Management of Building Projects in Nigeria

Fidelis O. Achi, Henry N. Onukwube, and Oluwaseyi M, Ajayi

2. Assessment of Factors Affecting Maintenance Management of Public Hospital Buildings in Lagos State, Nigeria

O.A. Adenuga, K.T., Odusami, and J.O. Faremi

3. A Study on Selected Safety Measures on Construction Companies in Lagos, Nigeria

O.A. Adenuga, A..A, Soyngbe , and M.A. Ajayi

4. Recent EU Developments on Liability for the Restoration of Contaminated Land

Julie Adshead

5. The Constructionarium and the Art of Contract Negotiation

Alison Ahearn

6. Integrating Facilities Management Experience into Student Learning Through Practical Projects at the University of Maryland Eastern Shore

O. Emmanuel Akinjide, Ibibia K. Dabipi , and Joseph O. Arumala

7. Enhancement of Construction Education with Special Projects and Activities

Joseph O. Arumala, Olusegun E. Akinjide, and Ibibia K. Dabipi

8. Compressed Earth Building Blocks For Affordable Housing

Joseph O. Arumala and Tariq Gondal

9. Regulating Fire Safety in Historic and Cultural Structures

Vincent M. Brannigan

10. Evolution of Construction Education in the United States: A Case Study

Richard Burt and Yilmaz Hatipkarasulu

11. The Origins and Empirical Basis for Expert Witness Practice in Rights to Light Litigation in England and Wales: A Critical Study

Paul Chynoweth

12. Restatement in the Law of Public Tenders: Reformulation of the Scope of a Tender Process Contract

Ron W. Craig

13. Design Management in Complex Projects using a Simulation Based Approach

Hemanta Doloi

14. Measuring Performance in Construction Projects – A Critical Analysis with an Australian Perspective

Hemanta Doloi and Ming Y Lim

15. Climate Change Adaptation: a Multi-Disciplinary Challenge

Malcolm J Dowden

16. Aggregate Piers and the Construction Classroom

Ben Farrow, Salman Azhar, and William Beckler

17. Sustainable Construction Practices: AGC Contractors' Awareness and Participation

Scott Thomas Eden Fee

18. Analysis of the Forces in the Exponentialoid Growth in Construction

José L. Fernández-Solís

19. Definition of Natural and Artificial Sustainability as the Force that Tames an Exponentialoid

José L. Fernández-Solís

20. The Case for a Professional Doctorate Research Degree in the Built Environment

Ian Frame

21. The Application of Corporate Real Estate Strategies to Sport Facilities

Julia Freybote

22. Effects of Litigation in the Construction Industry: Stratification and Insolubility

Erin N. Gibbons

23. A Formal Model for Construction Safety Risk Management

Matthew Hallowell and John Gambatese

24. GPS Utilization Challenges in Transportation Construction Project Delivery

John J. Hannon and Douglas Townes

25. A Tablet PC Application for Construction Site Safety Inspections

Yilmaz Hatipkarasulu

26. An Evaluation of the Impact of Workplace Connectivity on Office Productivity

Barry P. Haynes

27. Affective Roles for Agents in Local Government Corporate Real Estate Projects

Chris Heywood, Greg Missingham, and Russell Kenley

28. Condominium, Commonhold and Land Readjustment Law in Practice

Rob Home

29. Construction Professional Services: A Process Model

Mike Hoxley, Andrew Knight, and Mohieddin Grada

30. Case Studies on Scottish Construction Companies Embracing Sustainability

Kirsty Hunter and John Kelly

31. Client Characteristics and the Use of Direct Labour System in the Nigerian Construction Industry

G.I. Idoro, R. O. A. Iyagba and K. T. Odusami

32. Using Analytic Network Process (ANP) for Performance Measurement in Construction

Z. Isik, I. Dikmen, and M.T. Birgonul

33. Risk Allocation in Public-Private Partnership Projects – An Innovative Model with an Intelligent Approach

Xiao-Hua Jin and Hemanta Doloi

34. Valuation of Adaptable-Workspace over Static-Workspace for Knowledge Organizations

Parminder Juneja and Kathy O. Roper

35. Efficiency Analysis for RFID-based Curtain Wall Unit Management System

Hyun-Koo Kang, Young-Seo Ha, Jung-Ho Yu, and Chang-Duk Kim

36. Changing the Paradigm of Leadership

Jacob Kashiwagi, Kenneth Sullivan, William W. Badger, and Dean Kashiwagi

37. Perceived vs. Actual Industry Value of Leadership Programs

Jacob Kashiwagi, Kenneth Sullivan, William W. Badger, and Dean Kashiwagi

38. A Standard Approach to the Whole Life Costing of Small Scale, Sustainable, Energy Generation and Design Solutions

John R. Kelly and Kirsty Hunter

39. Mission Drift in Statutory Adjudication

Peter Kennedy and Janey Milligan

40. Integrated Supply Chain – An Example from the UK Construction Industry

Malik M A Khalfan and Peter McDermott

41. Roof Maintenance Record Analysis Toward Proactive Maintenance Policies

Non Khuncumchoo, Godfried Augenbroe, and Linda Thomas-Mobley

42. Adaptive Reuse of Large Single-Tenant Retail Facilities (Case Study)

Roger Killingsworth and Ben Farrow

43. Construction Education and Study Abroad Classes: How Auburn University is Preparing Students for a Global Perspective of Design and the Built Environment

Scott W. Kramer

44. A Comparative Study of Construction Safety: OSHA in the United States versus EASHW in the European Union

Scott W. Kramer and Jack R. Byrd

45. Integrated Healthcare Facility Management Model – A Case Study

S. Lavy and I.M. Shohet

46. Energy Performance Evaluation of Campus Facilities

Sang Hoon Lee and Godfried Augenbroe

47. The Use of Formal Methods for Decision Making in the Planning Phase of Healthcare Facilities

Clarissa Lima and Godfried Augenbroe

48. An Investigation into the Adjudication of Disputes in the South African Construction Industry

Marthinus J Maritz

49. Ownership and Performance of Professional Service Firms

Ronald R. Mau

50. TIPRA and the Effects on Construction Projects and Firms

Ronald R. Mau and Donald Jensen

51. Policy for Reducing Carbon Emissions from Buildings in England

Brodie McAdam

52. The Value of Building Sustainable Homes

Tammy McCuen and Douglas Gransberg

53. Assessment Methods for Built Environment Law

Tim McLernon

54. Best Value: An “Enterprise” Model for Delivering Services

John Michael, Kenneth Sullivan, and Dean Kashiwagi

55. A Legal Analysis of Some Schedule-Related Disputes in Construction Contracts

Issaka Ndekugri

56. Analysis of Types of Continuous Improvement: Demonstration Projects of the Egan and Post-Egan Agenda

Raymond Olayinka and Hedley Smyth

57. Sustainable Performance of an Alternative Energy System for Rural Houses in the United States

Angelica Ospina-Alvarado and Daniel Castro-Lacouture

58. Trends in Building Surveying Education: A Longitudinal Study

Emma Parsons and Mike Hoxley

59. Utilization of Risk Management to Show Value and Increase Competitiveness

Michele Pauli, Kenneth Sullivan, and Dean Kashiwagi

60. What Do We Know About the Impact of Stricter Border Enforcement on Real Estate Development and Values?

J. Russell Peterson and Jesse Saginor

61. Innovative Strategies for Reducing Workplace Accidents: A Case Study Approach

Debbie Phillips

62. Integrating Self-Managed Work Teams into Project Management

Debbie Phillips and Kathy Roper

63. Facility Management LEEDs the Way to Sustainability

Kathy O. Roper

64. The Economic Value of Construction: Achieving a Better Understanding

Les Ruddock

65. The Skills and Competencies of Programme Managers

Zayyana Shehu and Charles Egbu

66. Field Drawings: Evaluating a Weather Resistant and Tear Resistant Medium

Bruce W. Smith, Ben Farrow, and Austin Walker

67. Improving Temporary Lighting for Buildings under Construction: A Cost-Benefit Analysis

Bruce W. Smith

68. Case Study: Minimization of Best Value Issues in the Procurement of Construction Services at the City of Miami Beach

Kenneth Sullivan, Dean Kashiwagi, and Sarah Goodridge

69. Automated Monitoring of Construction Processes for Management Decision Making

Jochen Teizer

70. Construction Marketing – A Knowledge Transfer Partnership Case Study

*Claire Walker and Janet Mulcrone
(Dedicated to the late Professor Robert Ellis)*

71. The Process of Developing Prefabricated Modularized Housing Which Ensures Value for Both Customers and Supply Chain

Søren Wandahl, Randi Muff Ebbesen, and Erik Bejder

72. A Diverse Understanding of Value in the Building Industry

Søren Wandahl, Lene Faber, and Erik Bejder

73. Modelling the Determinants of Housing Construction Costs in Nigeria

A. O. Windapo and R. O. A. Iyagba

74. Personal Development Planning and E-Portfolios for Property & Construction Students at the University of Westminster

Jane Wright

75. Globalization of University Construction Education: A Case Study

George Zillante and Roger W Liska
