

## **Faculty Position**

Building Construction Program  
College of Architecture  
Georgia Institute of Technology

The Building Construction Program in the College of Architecture at the Georgia Institute of Technology is seeking an exceptional candidate for a full-time faculty position at the assistant or associate professor level, beginning Fall 2008 semester.

The successful candidate will be responsible for teaching, research, producing scholarly work, publications, advising, and serving on institute committees. The program is seeking an outstanding individual who is able to collaborate with other programs, schools, and research centers in the colleges of architecture and engineering in areas such as Ph.D. research, architecture, city and regional planning, quality growth and regional development, urban design, and civil engineering. The successful candidate will be responsible for teaching courses in construction management and development, construction technology, project management, and project delivery systems. A doctoral degree in construction, engineering, architecture or a closely related field with construction and teaching experience are preferred.

The review of applications will begin immediately upon receipt and continue until the position is filled. Georgia Tech is an Equal Education and Employment Opportunity Institution. Applicants should submit their letter of application, current resume or vita, and the names, addresses and phone numbers of three references to:
